
A
Individual-specific peptides are enriched at variant sites
Peptides overlapping a known variant position
One-sided Fisher test
p = 5.4 × 10−5
48% (24/50)
22% (255/1176)
50 highest-ICC peptides
Other eligible peptides
B
The peptide signal is genetic: MZ twins match the same donor
Median similarity relative to same-donor pairs
Protein score
Peptide score
